Hi Chip -

Sorry that they were not included. I just went with the list Ron sent me.

Is there any way either Joe or Burt could make a change and accommodate this call on Thursday? Unfortunately, Tuesday is totally out because only 5 other people indicate they are available that day and we wouldn't have the right LWG technical people. Monday the week (b) (6) LWG

Valerie - sorry, but our technical folks on this issue (Joe Goulet and Burt Shephard) can't do the call on Thursday. I didn't notice that they weren't on the original distribution list & hadn't responded to your message. Monday or Tuesday would work for both of them.

Subject
Portland Harbor Lamprey/Sturgeon
call - August 17

Hi all -

Based on the responses I've received so far, the best time for the call seems to be Thursday, 8/17. I'd like to suggest 3:30 - 4:30pm as there are several people who requested late afternoon that day.

The call in number will be

Non-Responsive

Thanks!
valerie

Subject: Portland Harbor Lamprey/Sturgeon call

Hi all -

[Sorry that some of you will be receiving an almost duplicate message but I forgot some folks]

At the Portland Harbor Managers meeting yesterday, we discussed setting up a conference call to discuss the Lamprey Ammocoetes Collection FSP as well as the lamprey sensitivity study and pre-breeding sturgeon study being developed by LWG. As well, LWG has asked its eco team to prepare a proposed schedule showing when the various lamprey and sturgeon FSPs will be submitted, when EPA discussions are needed, and when the field work should be done.

Based on yesterday's discussion, I think that the call needs to be held soon...like next week. Please respond with your availability on the following:

Monday, 8/14 afternoon
Tuesday, 8/15 between 11-12:30
Thursday, 8/17 afternoon

Thanks!
valerie
